This waiver applies to **today's float session and all future sessions** with oGoFloat.

Floating is a safe and voluntary activity. **You are always in control** and free to exit at any time. **Epsom Salt solution is very slippery.** Please exercise extreme caution getting in and out of the tank, while in the shower, and after you leave the building.

While every effort is made to protect the health and safety of guests using the float tank, the risk of injury (even serious injury) is always present and cannot be entirely eliminated. **By choosing to float it is expressly agreed that use of the float tank is at your own risk.** You acknowledge the inherent risks, accept full responsibility for your experience, and waive any claims against our business, its owners, or employees, and heirs for any injuries or damages incurred.

oGoFloat cannot provide medical treatment and will contact emergency personnel if needed.

## You cannot float if you have:

- recent tattoo work
- recent hair dye
- consumed alcohol or illegal drugs
- been sick within the last 14 days
- tubes in your ears
- incontinence
- current chemotherapy
- allergy to magnesium sulphate

• epilepsy,  
• liver or kidney disease,  
• a history of heart attack or stroke,  
unless your condition is under control with medication and you've cleared it with your doctor

## You agree to:

Initial

- shower and wash before
- never trust a fart
- take as much time as you need after your float to feel fully grounded before leaving the premises
- float naked
- clean your ears post float
- let us know if you're prone to vertigo or motion sickness
- not bring anything sharp into the float tank; trim your nails

We provide a comfortable, clean, and safe environment. To help us maintain the highest standards we expect you to treat our studio with respect. **You will not pollute the float tank with hair dye, lotions, oils, or creams, including the voluntarily or involuntarily release of bodily fluids of any kind. Any violation that results in the contamination of the float tank solution will result in a salt replacement and clean up fee of up to \$1,000.**
